RE: **REQUEST FOR CONFIDENTIAL TREATMENT**  
**WC Docket No. 14-58 - ETC Annual Reports and Certifications**

Request that Information Submitted to the Commission be Withheld from Public Inspection Pursuant to 47 C.F.R. §0.459 and 5 U.S.C. §552(b)(4): Five-Year Service Quality Improvement Plan Progress Report included in FCC Form 481

Confidential Information – Subject to Protective Order Before the Federal Communications Commission

Dear Ms. Dortch:

In accordance with the annual reporting requirements of 47 C.F.R. §§54.313 and 54.422, Seneca Telephone Company (the Company), Study Area Code 421945, is submitting a completed FCC Form 481 to the Commission via its Electronic Comment Filing System (ECFS) in WC Docket No. 14-58. *The version of the Company's FCC Form 481 submitted via ECFS is a redacted version of the filing that contains no confidential information.*

The Company, by its authorized representative, hereby requests confidential treatment of two attachments to its FCC Form 481: (1) the five-year service quality improvement plan progress report and (2) the financial annual report, both of which were redacted in the ECFS submission. The request for confidential treatment of the five-year plan progress report is being made pursuant to Section 0.459 of the Commission's rules and Exemption 4 of the Freedom of Information Act (FOIA). The request for confidential treatment of the financial annual report is being made pursuant to the FCC's March 22,

**MOSS-ADAMS<sub>LLP</sub>**

Ms. Marlene Dortch

2016 *Protective Order* in WC Docket Nos. 10-90 and 14-58. These attachments contain competitively sensitive data that Seneca Telephone Company maintains as confidential and does not normally make available to the public. Release of this information would have a substantial negative impact on the Company.

**Five-Year Service Quality Improvement Plan Progress Report**

Pursuant to Section 0.459 of the Commission's rules and Exemption 4 of FOIA, Seneca Telephone Company requests that the text and data extracted from its five-year service quality improvement plan progress report be withheld from public inspection because it contains competitively sensitive commercial and financial information that the Company maintains as confidential. Public availability of this information would have a substantial negative impact on the Company.

In accordance with Section 0.459 of the Commission's rules, the following information is provided in support of this request:

(1) Identification of the specific information for which confidential treatment is sought:

Attachment to Line 112 of FCC Form 481 – Five-Year Service Quality Improvement Plan Progress Report. Specifically, confidential treatment is sought for all information in the five-year plan progress report related to the Company's access line counts, existing broadband capabilities, and current and planned financial investments in its network that will improve service quality, service coverage, and/or service capacity for its customers.

(2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission:

The information was submitted in WC Docket No. 14-58 as an attachment to FCC Form 481- the Carrier Annual Reporting Data Collection Form. Section 100 of FCC Form 481 requires incumbent local exchange carriers receiving high cost support to attach a progress report on its five-year service quality improvement plan, pursuant to 47 C.F.R. §54.313(a)(1).

(3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged:

The five-year service quality improvement plan progress report contains granular information on the Company's access line counts and/or existing broadband capabilities as well as recent and planned capital investments in its network to improve service quality, service coverage, and/or service capacity. It also contains a

map of the Company's service area detailing progress toward meeting broadband deployment targets at the wire center level. This is closely guarded, privileged information that the Company does not make publicly available.

- (4) Explanation of the degree to which the information concerns a service that is subject to competition:

Broadband is subject to increasing competition in the areas served by rural, rate-of-return incumbent local exchange carriers (RLECs). Virtually all RLECs face competition from one or more wireless Internet service providers. Most RLECs also face competition from at least one other wireline broadband provider, such as a larger cable company, who will typically seek to "cherry pick" the lower cost portions of the study area. In addition, all RLECs face competition throughout their territories from satellite broadband providers.

- (5) Explanation of how disclosure of the information could result in substantial competitive harm:

Disclosure of the information contained in the five-year plan progress report would provide competitors with detailed, granular information regarding the Company's access line count, its existing broadband capabilities, and its recent and planned network investments that improve service quality, coverage, and/or capacity for subscribers. This would give competitors valuable confidential information with which to develop their own strategies for investing in the service area, thereby bringing substantial competitive harm to the Company.

- (6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

The Company has continually treated the extracted information in its five-year plan progress report as confidential and carefully controls the information to protect it from competitors. Access to the information is limited to employees that require it and to non-employees with confidentiality obligations such as lenders, consultants, auditors, and attorneys. In addition, when such information is required to be submitted to a state regulatory authority it has been filed as confidential information, not available to the public.

**MOSS-ADAMS<sub>LLP</sub>**

Ms. Marlene Dortch

Page 4

- (7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

The redacted information in the five-year plan progress report is not available to the public, and third-party access is limited as described in (6) above.

- (8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

The Company requests that the extracted information be withheld from public inspection indefinitely. The information in the five-year plan progress report details the Company's most recent network upgrades in relation to its previously submitted service quality improvement plan. It may also contain upcoming planned network improvements during the five-year period ending 2019. This information would provide a very useful baseline for competitors for several years beyond that period.

- (9) Any other information that the party seeking confidential information treatment believes may be useful in assessing whether its request for confidentiality should be granted:

Exemption 4 of FOIA shields from public disclosure commercial or financial information obtained from a person that is privileged or confidential. Based on the responses provided above, the information in question satisfies this test.

**Financial Annual Report**

Section 3005 of FCC Form 481 requires a privately-held rate-of-return carrier receiving high cost support to attach a full and complete annual report of the company's financial condition and operations pursuant to 47 C.F.R. §54.313(f)(2). Seneca Telephone Company seeks confidential treatment of its financial annual report pursuant to the March 22, 2016 *Protective Order* in WC Docket Nos. 10-90 and 14-58.<sup>1</sup> The *Protective Order* specifically covers information filed pursuant to 47 C.F.R. §54.313(f)(2).

Seneca Telephone Company is providing to the Office of the Secretary, under seal, this cover letter and the Form 481 filing which includes the confidential information that is being requested to be withheld from public inspection.

Each page of the five-year service quality improvement plan progress report confidential submission bears the legend, "CONFIDENTIAL – NOT FOR PUBLIC DISCLOSURE."

Each page of the financial annual report confidential submission bears the legend, "CONFIDENTIAL INFORMATION – SUBJECT TO PROTECTIVE ORDER BEFORE THE FEDERAL COMMUNICATIONS COMMISSION."

The confidential information has also been submitted to the Universal Service Administrative Company through its E-File system as attachments to the FCC Form 481.

In the filing submitted via ECFS, all pages containing confidential information bear the legend "REDACTED – FOR PUBLIC INSPECTION."

This cover letter includes no confidential information and the text is the same in both the non-redacted and redacted versions except for the confidentiality markings.

**4005 Rural Broadband Experiment**

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

**Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)**

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

**4001.** Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

**Community Anchor Institutions – FCC 14-98 (paragraph 79)**

**4003a.** RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

**If yes to 4003A, please provide a response for 4003B.**

**4003b.** Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

REDACTED - FOR PUBLIC INSPECTION

## **LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE**

Seneca Telephone Company (the “Company”) complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The rates, terms, and conditions under which the Company operates are outlined in its local exchange tariff, which are approved by the Missouri Public Service Commission (“Missouri PSC”). The tariff contains provisions regarding the Company’s customer service and protection practices.

Service quality standards for voice service are established by the Missouri PSC. The Company consistently meets or exceeds those standards and provides reports to the Missouri PSC, in accordance with the Missouri PSC’s rules.

With regard to broadband service, the Company provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a “best effort” service and are dependent upon a number of variables, many of which are outside the control of the Company. The Company also complies with the FCC’s Open Internet rules, 47 C.F.R. §§8.3-8.11. These rules prohibit blocking, throttling, and paid prioritization, and also require transparency of network management practices, performance, and the commercial terms of broadband services.

The Company complies with any and all consumer protection obligations under state law.

The Company also complies with the following consumer best practices: (1) the Company discloses its rates and terms of service to customers; (2) the Company provides specific disclosures in its advertising; (3) the Company separately identifies carrier charges from taxes on its billing statements; (4) the Company provides ready access to customer service; (5) the Company promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Company abides by policies for protection of consumer privacy.

Finally, the Company has a policy and established operating procedures that comply with the FCC’s Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011). Certification of the Company’s compliance with CPNI rules and a description of the Company’s operating procedures that ensure compliance are filed annually with the FCC.

## **LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS**

Seneca Telephone Company (Company) is able to function in emergency situations for both voice and broadband service. The Company has permanently mounted standby generators at the main switching office of each wire center with capacity to provide emergency AC service in the event of a power outage. In addition, the Company has several portable generators to provide AC service at digital line concentrator sites within each wire center's exchange area to ensure functionality when commercial power is not available at these locations. The network is capable of managing traffic spikes resulting from emergency situations.

Toll service(s) are provided over fiber optic facilities which are arranged to ring protect should a fiber breakage or a hardware failure occur. In addition to the toll service ring facilities, remote offices are protected with fiber ring facilities for the host/remote office links. Although the Company's ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

## **LINE 920 – TRIBAL GOVERNMENT ENGAGEMENT OBLIGATION**

Seneca Telephone Company provides service within the territories of the Peoria, Eastern Shawnee, Modoc, Wyandotte Nation and Seneca Cayuga Tribes of Oklahoma. The Company periodically contacts each Tribal government to assess what it can do to meet the Tribe's communications needs, now and in the future. In particular, the Company seeks to engage on the following topics:

- Needs assessment and deployment planning with a focus on the Nation's community anchor institutions.
- Feasibility and sustainability planning.
- Marketing services in a culturally sensitive manner.
- Compliance with rights of way processes.
- Compliance with land use permitting requirements.
- Compliance with facilities siting rules.
- Compliance with environmental review processes.
- Compliance with cultural preservation review processes.
- Compliance with the Nation's business and licensing requirements.

In 2015, the Company was contacted by the Eastern Shawnee Tribe, requesting voice and data services for a planned casino within the Seneca exchange area. The requests consisted of SIP based trunks for an IP-PBX, analog POTS lines for fax services, a dedicated fiber link to interconnect three casinos, high speed DSL, and HI-CAP digital T1 special service circuits for the gaming companies. Seneca Telephone Company provided these services within time to open the casino as planned.

In 2015, the Company was not contacted by any other Tribal governments concerning its service offerings in Oklahoma.

## **LINE 1010 – VOICE SERVICES RATE COMPARABILITY**

The Wireline Competition Bureau's most recent reasonable comparability benchmark for voice services is \$47.48, which includes the federal subscriber line charge ("SLC").<sup>1</sup>

In 2015, in all of the exchanges served by Seneca Telephone Company ("the Company"), the single-line residential local rate was \$14.00. When the federal SLC (\$6.50) is included, the rate becomes \$20.50. Therefore, the Company's pricing of fixed voice services in 2015 was less than the reasonable comparability benchmark of \$47.48.

## **LINE 1030 – BROADBAND SERVICES RATE COMPARABILITY**

In 2015, Seneca Telephone Company charged a residential rate of \$55.95 for broadband providing 10 Mbps download, 1 Mbps upload, and an unlimited usage allowance. This rate is lower than \$77.80, which is the 2015 reasonable comparability benchmark for the same offering established by the Wireline Competition Bureau.<sup>1</sup>

## **LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS**

**Oklahoma** residential customers of Seneca Telephone Company (“the Company”) who qualify for the Lifeline Program receive a state discount of \$19.50.

The Lifeline single-line residential rate, including the federal subscriber line charge (“SLC”) is \$1.00 (\$20.50 standard rate - \$19.50 discount). This rate applies to the following: Seneca and Tiff City exchanges.

**Missouri** Residential customers of Seneca Telephone Company who qualify for the Lifeline Program receive a Lifeline Program discount of \$15.75 (9.25 Lifeline federal discount + \$6.50 Lifeline state discount).

The Lifeline single-line residential rate, including the federal subscriber line charge (“SLC”) is \$4.75 (\$20.50 standard rate - \$15.75 discount). This rate applies to the following: Seneca and Tiff City exchanges.

All single-line residential customers, including Lifeline customers, have an unlimited number of minutes for calls made within their local calling area.

Toll charges for calls outside of the local calling area are determined by the long distance carrier of the customer’s choosing. Customers may elect to subscribe to toll blocking at no charge.

The Company does not disconnect the service of Lifeline subscribers for the non-payment of toll charges. However, the Company reserves the right to implement toll blocking, at no charge, if the customer incurs a significant balance of unpaid toll bills.

Lifeline Program reductions do not apply to additional services such as information-related services and custom calling features. Lifeline customers may subscribe to these services, where available, at the same rates offered to other customers.

The attached pages from the Company’s Local Exchange Tariff include the terms and conditions for Lifeline Service in Missouri and Oklahoma.

LOCAL EXCHANGE TARIFFS

Lifeline Service

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single-party residence service.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
  - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
  - b. Toll blocking is offered to Lifeline subscribers at no charge.

A. Applicability

1. Lifeline Service is a voice telephony service assistance program designed to provide eligible residential customers with a credit to be applied to the price of Residential voice telephony service.
2. Eligible customers will receive a credit as set forth in Section IV. Lifeline Credits below, to be applied to their Residential voice telephony service.
3. Customers shall not receive more than one Lifeline credit regardless of the number of residential voice telephony services or locations the customer receives service within the State of Oklahoma.
4. Lifeline Service shall not be available on a retroactive basis.

B. Designated Services Available to Lifeline Customers (1)

The following services shall be offered to eligible Lifeline customers:

1. voice telephony services that provide voice grade access to the public switched network or its functional equivalent;
2. minutes of use for local service provided at no additional charge to end users;
3. access to the emergency services provided by local government or other public safety organizations, such as 911 and enhanced 911, to the extent the local government in an eligible carrier's service area has implemented 911 or enhanced 911 systems; and
4. toll limitation services to qualifying low-income consumers as provided in 47 CFR §54.400.

C. Eligibility Requirements for Lifeline Service On Non-Tribal Lands

1. The customer, one or more of the customer's dependents, or the customer's household (applicant) seeking Lifeline service credit must provide documentation to the Company establishing that the applicant meets one or more of the following eligibility requirements prior to receiving the Lifeline service credit.
